

THE BEST OF BOTH WORLDS

As the largest independent clinical laboratory in California, Westcliff Medical Laboratories, Inc. is staffed by dedicated employees who are passionate about their commitment to provide the highest quality of testing and services to our valued clients and their patients.

It is that commitment to you that inspires us to announce a pending transaction between Westcliff Medical Laboratories, Inc. (Westcliff) and Laboratory Corporation of America (LabCorp), in which LabCorp will purchase Westcliff through a court approved process. When the transaction is finalized, we will continue to service the physicians, hospitals and patients who have relied on us for their reference testing services. Until the transaction is complete, Westcliff and LabCorp will continue to operate as separate companies.

This transaction between Westcliff and LabCorp will bring together the **BEST OF BOTH WORLDS** to the benefit of our valued clients and their patients, while maintaining the community based feel and commitment to personalized service that has made Westcliff a service leader in California for over 40 years. When complete, this transaction will provide:

- **Expanded Access:** Your patients will have access to an extensive network of Patient Service Centers and Stat Laboratories throughout the state and nation
- **Convenience:** Contracts with all major health plans and payers needed to provide the service and convenience your patients desire, including Blue Shield of California
- **Innovation:** Efficient ordering of LabCorp's menu of genomic and molecular tests, particularly in the areas of infectious disease, oncology, and genetics
- **Expanded Connectivity Options:** Multiple options for test ordering and result reporting, including web-based systems and EMR interfaces, that will enable you to electronically access and transmit critical data with other providers and health plans

The employees at Westcliff are excited by this opportunity. Westcliff and LabCorp are a natural match, and when it is finalized, this transaction will bring you and your patients the quality, service and science that will allow you to enjoy the **BEST OF BOTH WORLDS!**
